**DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE**

514,6 is a two story Edwardian duplex with each house containing three bays. The exterior wall material is brownstone brick set in a variation of common bond (there are intermittent headers in every sixth row). 516 has been less altered than 514 so its appearance will be described.

516 is topped with a large plain cornice and frieze. A wooden panel with decorations is located between the frieze and the stringcourse just above the second story windows. Three second story windows are contained in a bayed projection extending from the roof line to the top of the porch. The windows have plain surrounds and are double hung with 1/1 lights. An open porch, projecting from the first story, rests on two Doric columns with brick supports. The first story facade is divided into three bays. At the center and right are double hung windows with 1/1 lights, plain surrounds, and flat-topped transoms of stained-glass. The main entrance at the right also has a flat-topped transom of stained glass. 514 is symmetrical to 516.

514,6 Woodbourne Avenue is located on a well used crosstown thoroughfare near a heavily trafficked intersection, York and Woodbourne. A large supermarket will soon be built across the street.
